RG104 E-1 Box 171

Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., June 9, 1891.

The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

In approving your requisition for funds for the month of June I have advanced you the full amount to the credit of the appropriation for wages of workmen. This, with the balance of $4,091.10 on hand, makes $30,633.42 or something over $3,000 less than your pay roll for the month of April.

You will use all of this sum in the payment of wages, before using any portion of the amount advanced you from the appropriation for coinage of silver dollars, and you will use of that appropriation enough to pay the deficiency in the June wages.

I find that you have in the Treasury to your credit of the appropriation for contingent expenses, the sum of $7,830.36, and that you have a balance on hand of $9,397.42 making a total of $17,22778

I would suggest that you make requisition for $7,500 of the balance in the Treasury to the credit of your contingent appropriation or as much thereof as you think you will need for the expenses of the present year, and that youb.deposit in the Treasury the sum of $9,215.15, the money advanced you from the appropriation for the coinage of silver bullion less the amount which will be required to be used from that appropriation to complete your wages

RG104 E-1 Box 171

for the current month.

I think you could safely deposit at once $6,000 of that amount.

The idea is to exhaust your regular appropriations as nearly as the expenses of the mint require before using any portion of the appropriation for the coinage of silver dollars.

Very respectfully,

E. O. Leech

Director.
